

Stand Around 3, Single sided (double sided)

Functions and Advantages

- Robust and galvanized construction.
- Easy to assemble (about 10 minutes with a hex wrench).
- Extendable in width, also adjustable in height due to its telescope legs.
- Portable and collapsible for transportation needs.
- Anti-roll function at stormy weather (if the stand tips over it will fold and remain flat on the ground).
- Standard pitch is 37,5 degrees but can easily be adjusted to 18 degrees.
- The stand is adjustable for banner height; 75,100, 125 and 150 cm.

Stand Around 3 kit

- 2 a-stands.
- 2 crossbars.
- 4 ground pegs.
- 16 straps.

Additional modules

- Extension kit for double sided exposure.
- Concrete/wooden sleepers.
