

# Stand Around 6, Single sided (double sided)

## Functions and Advantages

- Robust and galvanized construction.
- Easy to assemble (about 10 minutes with a hex wrench).
- Extendable in width, also adjustable in height due to its telescope legs.
- Portable and collapsible for transportation needs.
- Anti-roll function at stormy weather (if the stand tips over it will fold and remain flat on the ground).
- Standard pitch is 37,5 degrees but can easily be adjusted to 18 degrees.
- The stand is adjustable for banner height; 75,100, 125 and 150 cm.

## Stand Around 6 kit

- 3 a-stands.
- 4 crossbars.
- 6 ground pegs.
- 32 straps.

## Dimensions

- Size of banner (maximum):
  - Height: 150 cm.
  - Width: 600 cm.

## Additional modules

- Extension kit for double sided exposure.
- Concrete/wooden sleepers.
